Fresh evidence of mass killings in Khulna

KHULNA, Jan. 30:—Fresh evidences of execution of unfortunate Bengalees are coming to light from Khulna and Khalishpur areas when the police found over two thousand skeletons of human bodies dumped in different spots in these areas, reports BSS.

The police conducted search

in these areas in a bid to re. cover unauthorised arms and ammunitions from the people of the area who had not surrendered their arms even after repeated warnings from the administration. During search operation in the area yesterday the police discover-ed more than one thousand dead bodies of the Bengalee workers inside the several safety tanks of the latrines of labour colony within the Peoples' Jute Mills in Khalishpur.
Many of the skeletons of these human bodies had their legs hands bound by rope. Another execution spot was a place in Goalkhali where inside a small bush a large num: ber of human skulls, skeletons and bones were found. Yet another excution site was found near a pond in Khalishpur ground where also skulls and skeletons testifying

killing were recovered.

Besides, killing grounds were found in ferryghat Basupara, Shaikhpara and railway colony. Ditches, drains and abandoned places were the ideal places for such executions of the Bengalees.

The search party also reco-vered huge quantities of arms including heavy weapons and ammunitions, hand grenades. high explosives mines. large quantities of looted arti. cles. It may be recalled here that a large section of popula-tion in Khalishpur and Khuina areas were armed by the oc-cupation Pakistan Army to jointly commit genocide of the Bengalees in Khulna. The Pakistan troops with the help of collaborators and agents had virtually wiped out the Bengalee labourers of the jute mills which were mostly located in their pockets. Cres-cent Jute Mills which stands on the bank of river Bhairab was also turned into another slaughterhouse where a wooden pire was built for the execution of Bangladesh la. bourers. After execution the bodies were thrown into the river.
