Nurul Amin condemns Indian intervention

Following is the transcript of Mr. Nurul Amin's broadcast from Radio Pakisran Dacca, on Monday night;

The news of infiltration of armed Indian Nationals into East Pakistan following the resolution adopted by the Indian Parliament openly inciting armed insurrections in the eastern part of our country has proved once more the scan, regard India enterthins for the gational independence of other countries. She does not healtate to meddle in the internal affairs of a country whenever it suits her purpose.

As has alrealy been pointed out by the government of Pakistan, we feel constrained to say that by her interference in our internal affairs ladis has set dangerous precedence throwing to the winds all canons of international decorum.

While we condemn the highhanded aggressive and bellicuse designs of India, we want to tell her in unequivocal ferms that the people in East Pakistan view this attitude of India with contempt and are no, prepared to tolerate any encreachment upon their sovereignty. Moreover, the Indian propaganda machinery has been geared up to disseminate false and malicious propaganda, to incite innocent people to face dangerous consequences.

The Indian sub-continent was devided into Pakistan and India so that both may live happily as friendly neighbours. But unfortunately ever since its inception, India has not accepted Pakistan in good grace. It has always tried and is still trying to undo Pakistan by whatever means it can.

We feel called upon to sound a note of warning to India against the disastrous consequences of such a policy and ask her to desis, from pursuing it so that our both countries may co-exist in the interest of our respective peoples.
